Overview

- History of Triple P in San Francisco
- Implementation
- Outcomes
- Upcoming year

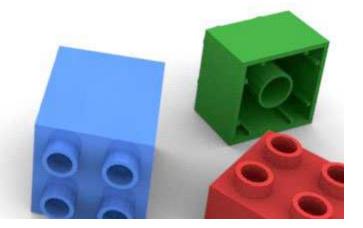

Triple P in San Francisco

Triple P in San Francisco since September 2009

- Triple P pilot intended to serve 60 families in Family Resource Centers
- Training for staff from FRCs with a child welfare focus (visitation)
- 6 agencies trained in Level 4 Group + Level 5 Pathways
- Hoped to positively affect child mental health, child welfare outcomes, and parental stress
- The Parent Training Institute (PTI) was established to oversee the implementation and evaluation of the Triple P program

The PTI receives blended funding from

- The San Francisco Human Services Agency
- First 5 San Francisco
- San Francisco Dept of Public Health
- Dept of Children, Youth, and Their Families

Triple P To Date

Triple P trainings in:

- Levels 2 (1)
- Level 3 PC and PC Teen (1)
- Level 4 Standard (2) 15 total practitioners
- Level 4 Group (4)
- Level 4 Group Teen (1)
- Level 5 Enhanced (1)
- Level 5 Pathways (6)

Languages: English, Spanish, Chinese (Level 4 Group only)

53 Triple P Group + Pathways series, 4 Group only (Chinese) run to date

Including 7 groups currently active

Funding for Triple P Services

Funding Sources	Triple P Locations
County General Funds / Prop 10	Family resource centers
EPSDT	Outpatient child mental health clinics, Therapeutic Visitation Services
Drug Medi-Cal	Outpatient substance abuse clinic

Other funding supports for Triple P in San Francisco

•SAMHSA System of Care Grant (used for the PTI database)

•Title IV-E funds (match for training foster parents)

Implementation Highlights

- Site readiness assessments
- Promise to Parents Food, childcare, transportation, DVD
- Monthly coaching of accredited practitioners
- Monthly problem-solving with Triple P site administrators & supervisors
- Fidelity monitoring
 - Session checklists (including make-up sessions)
 - Videotaping of all sessions (5 agencies)
 - Focus group with participants
- Rapid feedback of evaluation outcomes (facilitators, administrators, families)
- Yearly report to administrators about agency-level outcomes (compared to self and all other agencies running Triple P)

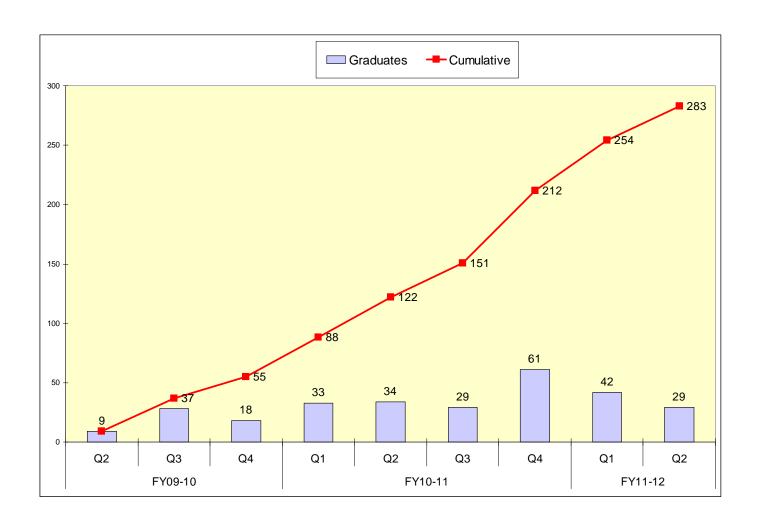

In September 2011, the PTI won the SAMHSA Science and Service Award for excellence in implementing an evidence-based practice (Triple P).

Evaluation

Pretest, Posttest, 3 month, 6 month, 1 year

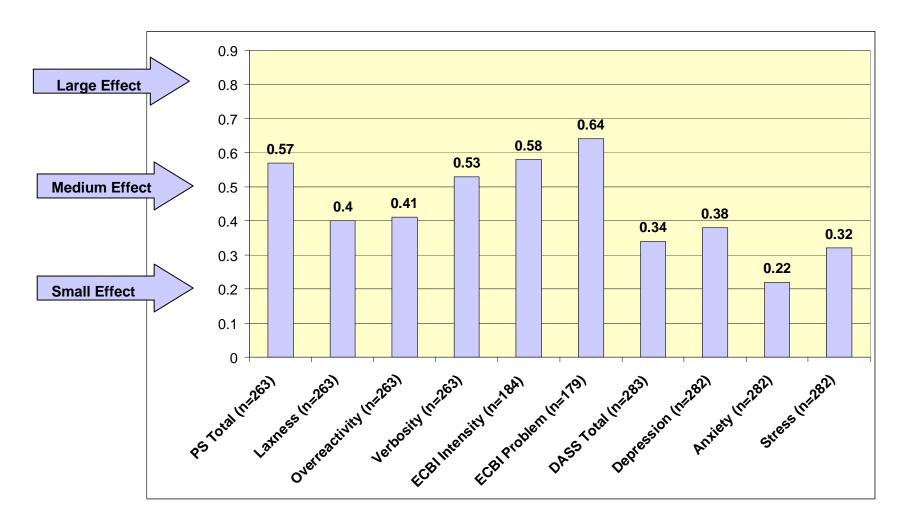

- Parenting practices (Parenting Scale)
- Child behavior (Eyberg Child Behavior Inventory ECBI)
- Parental Stress (Depression, Anxiety Stress Scale, Short Form -DASS21)
- Service Needs
- ❖ Participants complete 75% of content sessions to graduate
- The PTI conducts a focus group with graduates following every Triple P group
- Participants are paid \$25 for the focus group and each follow-up assessment

PTI Triple P Graduates to Date

Triple P Outcomes

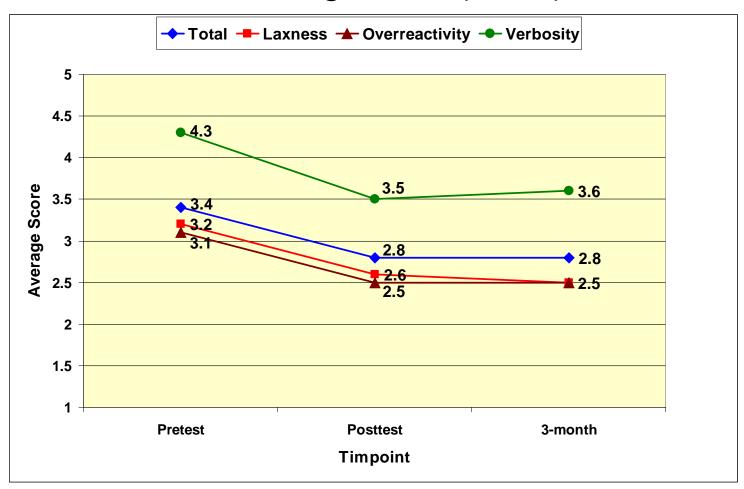

Effect Sizes: Cohen's D

10 Change from pretest to posttest is statistically significant for all domains of all measures.

Triple P Outcomes Over Time:

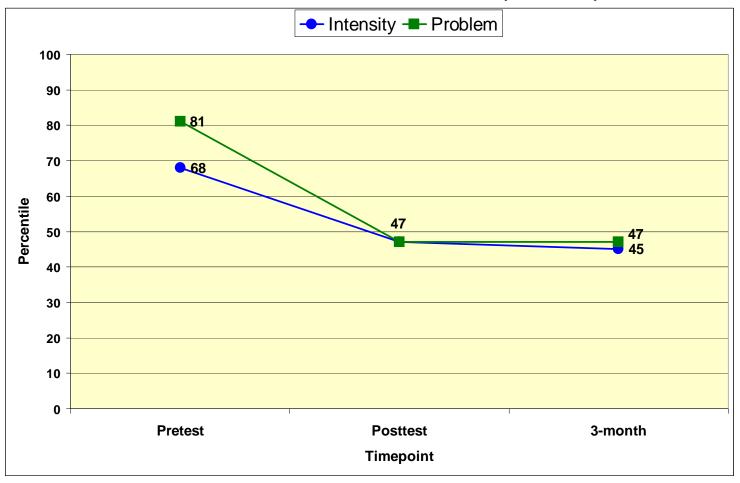

Parenting Scale (n=29)

Change from pretest to posttest is statistically significant for all domains. Change from posttest to 3-month follow-up is not, indicating that gains are maintained 3 months after completion of Triple P.

Triple P Outcomes Over Time:

Child Behavior: ECBI (n=23)

Change from pretest to posttest is statistically significant for both domains. Change from posttest to 3-month follow-up is not, indicating that gains are maintained 3 months after completion of Triple P.

Projects In Progress

- Child welfare outcomes (current)
- Chinese language Triple P translation project (current)
 - Cantonese and Mandarin-speaking consultant
- Outcomes by language (Jan 2012)
 - English, Spanish, Chinese
- Foster parent training pilot (Jan 2012)
 - 3 Triple P series co-run by a mental health clinician and a foster parent
 - 1) newly-licensed foster parents, 2) "seasoned" foster parents, and
 - 3) Spanish-speaking foster parents
- Group Teen pilot (First group starts Feb 2012)
