

# California Triple P Funding Survey Summary

November 4, 2013

Stephanie Romney, PhD  
The Parent Training Institute

# Survey Background

- ▶ August 2013 California Statewide Triple P call
- ▶ Discussion about possible call topics
  - Funding and sustaining of Triple P services
  - Innovative funding practices
- ▶ Apparent from the call discussion that participants knew very little about the populations served, provider types, and funding streams used to support Triple P across California

# Innovation (text)

- ▶ *Targeted Case Management*
- ▶ *Targeted Case Management funds- State MediCal*
- ▶ *We are looking at hosting a training at our agency to provide for additional staff to deliver services and do cost sharing between multiple programs (privately, grant and County funded) for the training cost.*
- ▶ *Currently surveying providers to learn how they are funding. Thinking about developing a collaborative of providers who want to do Triple P on a fee for service basis to provide advertising/marketing/pr support to reach families who can afford to pay for service.*
- ▶ *We are currently trying to deliver Triple P Group Services at different locations including low income housing as part of the resource centers and their government funding.*

# Next Steps?

- ▶ *I would like to hear about whether/how other licensed clinicians and medical providers are billing health insurances for Triple P. Will anything about the ACA make this a more feasible funding strategy?*
- ▶ Next steps for the survey, if any

To all of the California Triple P Administrators who took the time to complete the survey and share their knowledge: **Thank you!**
